

# Manifold Destiny Adventurers

May 13, bolstered on coffee and Oatmeal Raisin cookies at the Grange, a bunch of us headed out on an adventure. We shared three goals: test our cars, have fun and finally settle a long-contested manifold cooking contest.

Lunch was served at 42.4415012°, -123.6875718° at about 1300 hrs. Secreted under the hood, sitting on the top of the exhaust manifold, wrapped in tinfoil and ready to bake, were anticipated gourmet treats.

We drove over several bumpy, dusty and narrow but paved roads in a Northerly direction. Passing Briggs Creek below in the valley for most of the drive, we saw deer, elk, and a lot of colorful birds.

The gourmet meals ranged from "Two slices of white bread and SPAM with mustard", "toad in the hole" burritos and the legendary "Welding Glove" special.

Several of the cars suffered opportunities for maintenance and will be massaged before that upcoming trip down south. A couple of sedans turned back about two miles from the meeting place. GPS errors?

After the meal, we decided the contest was too close to choose. We policed the area, and climbed into the cars. Another great day in a Model A.

Want to follow in our footsteps?

From Interstate 5, take the Merlin Exit (61) to Merlin / Galice Road approximately 12 miles to the Briggs Valley Road (Forest Road 2500). Follow Forest Road 2500 approximately 15 miles to Forest Road 2512, turn right and the campground will be on your left about 0.5 mile up the road.
