The Tool Box

By John Firth

The purpose of this column is for members who are either restoring a Model A or are working on issues that need correcting or updating to share their experiences and progress with the club. But I won't know what you are doing unless you tell me about it, so give me a call!

The Busted Knuckles group out did itself on March 5 when 14 eager members showed up to help Bob Hughes install his newly rebuilt motor. Everybody chipped in, and in 4 hours we had his car running!

Tom Bormuth has his 30 Tudor Sedan body nearly ready for primer and paint.

Dallas Nielsen is putting together the wood puzzle of his Special Coupe top. Not an easy task since he has a wood kit with no instructions!

Dale Waldron will soon be painting color on Kitty Waud's Special Coupe.

New member-to-be Bill Hayes is servicing the running gear on his 29 Roadster Pickup.

Todd Calvert continues to work on his 30 Tudor barn find to make it road worthy.

Craig White bought a new pickup bed for his late 31 hardtop pickup and expects to have it on the road this summer.

If you have updates, call me at 541-474-1516. If you need help with something, as long as you are a member in good standing of Henry's Lady, you can call Chuck Green 541-471-9214 for a Busted Knuckles consultation.

Keep turning those wrenches!

John

Be aware that the availability of knowledge and repair services is diminishing as Model A hobbyists and experts age, so if you have a project on your list, let this be a reminder and an incentive to get it started sooner rather than later! Kudos to Mike McKey for reminding us.
